You'll usually find it in the Applications folder and/or on the Launchpad You shouldn't have to manually enable it unless you've turned it off.. There's no way to disable it in your general Firefox options, so it's unlikely that you'll need to turn it on unless you've manually edited the about:config page.. Click the menu, click Add-ons, and then click Disable next to the extension You'll usually see a somewhat-scary message that says This might void your warranty This message is just a reminder that you should only edit this file if you have a specific reason for doing so.. If you really can't stand to see another ad again, then please consider supporting our work with a contribution to wikiHow. [Download Pes 2014 For Mac](#)
